

Viva palestina!

- **Author** : KirraTN
- **Difficulty** : Friendly/Easy

Description

Let's support palestine using all available methods.

Viva plestina!

Hint 1:

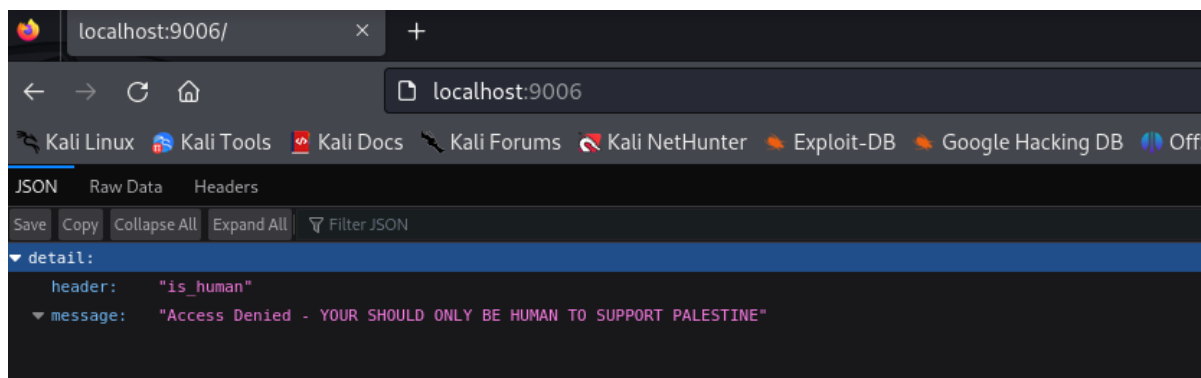

What do you know about http methods?

<https://developer.mozilla.org/en-US/docs/Web/HTTP/Methods>

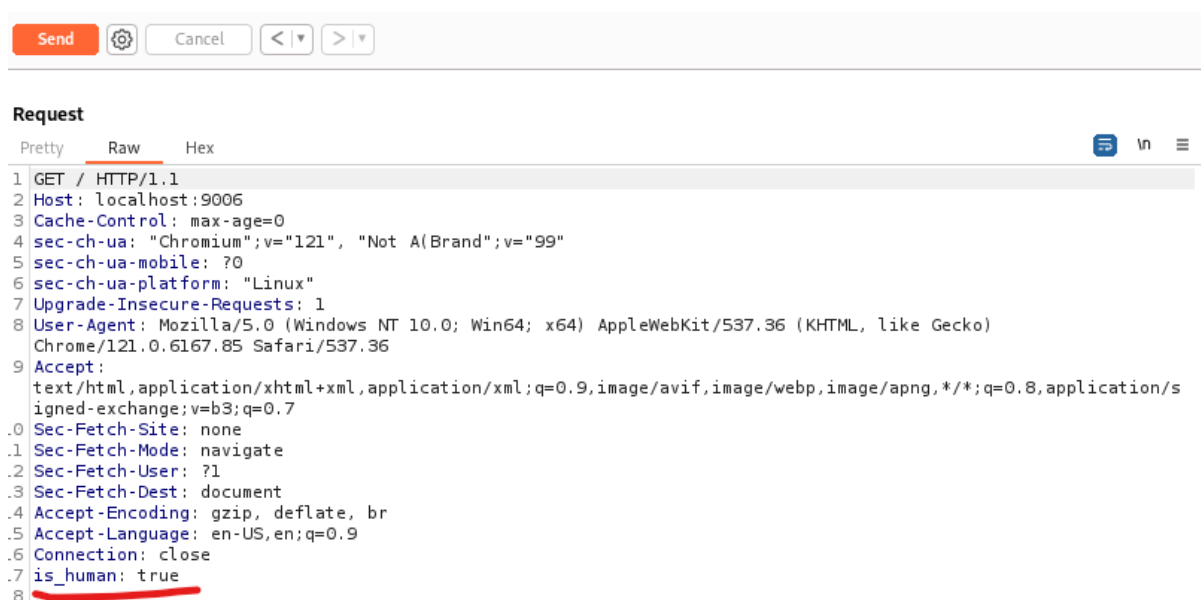

Solution

1. It seems we have encountered an error: missing header

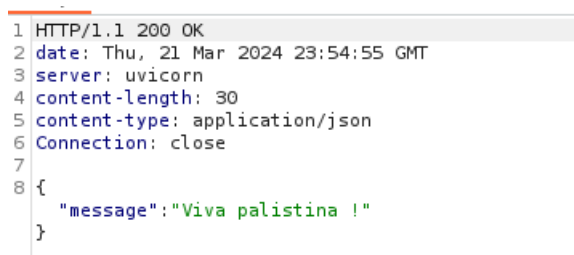

2. Let's intercept the request and add the header is_human = true

3. Yes, it works, but what's next? After reading the description, let's try to modify the request method.

GET :

POST :

```
1 HTTP/1.1 200 OK
2 date: Fri, 22 Mar 2024 00:01:44 GMT
3 server: uvicorn
4 content-length: 33
5 content-type: application/json
6 Connection: close
7
8 {
  "message": "Vive la Palestine !"
}
```

PATCH :

Response

Pretty Raw Hex Render

```
1 HTTP/1.1 200 OK
2 date: Fri, 22 Mar 2024 00:03:03 GMT
3 server: uvicorn
4 content-length: 34
5 content-type: application/json
6 Connection: close
7
8 {
  "message": "Long live Palestine!"
}
```

PUT :

Response

Pretty Raw Hex Render

```
1 HTTP/1.1 200 OK
2 date: Fri, 22 Mar 2024 00:28:54 GMT
3 server: uvicorn
4 content-length: 34
5 content-type: application/json
6 Connection: close
7
8 {
  ":message": "Es lebe Palästina!"
}
```

OPTIONS :

Response

Pretty Raw Hex Render

```
1 HTTP/1.1 200 OK
2 date: Fri, 22 Mar 2024 00:07:25 GMT
3 server: uvicorn
4 content-length: 54
5 content-type: application/json
6 Connection: close
7
8 {
  "message": "的中文翻译是 巴勒斯坦万岁 !"
}
```

Let's try the DELETE method and we got the flag :

Response

Pretty Raw Hex Render

```
1 HTTP/1.1 200 OK
2 date: Fri, 22 Mar 2024 00:24:33 GMT
3 server: uvicorn
4 content-length: 112
5 content-type: application/json
6 Connection: close
7
8 {
  "message": [
    "Securinets{FR33_P4L3ST1N3}",
    "we will never forget, we will never stop sharing, FREE PALESTINE! "
  ]
}
```
